

## NATIONAL PROGRESS REPORT

INSTITUTION: FIJI ISLANDS BUREAU OF STATISTICS

COUNTRY: FIJI

### **Statistics on Non-Profit Institutions**

Not only the statistical report on the non-profit institutions but reports for all the 1995 economic surveys are being finalized, after which we will re-base our Gross Domestic Product Constant Price Series to 1995.

### **Classification of Service Products**

Comments are being sought from the Bureau's Management and Stakeholders on the Fiji Standard Industrial Classification which has been revised and is now based on International Standard Industrial Classification Revision 3. On completion of this project the suitability of the Commodity Product Classification will be looked at.

### **Measurement of Employment in Services**

Employment statistics, which includes employment in services, is measured annually and the results of the 1998 survey is available and the 1999 is on the field.

### **Service Product Prices**

With resource constraints and the current crises faced by the country that led to the termination of the Institutional Strengthening Program, we were not able to take this off the ground. We do however propose to start work on the Producer Price Index in the very near future.
