

## TRIAL SURVEY FOR ENGINEERING SERVICES

- 1) Please choose one category of engineering services which is represented within the company in the following branches: project management, industrial engineering, electrical engineering, heating and air conditioning/energy, and construction and installation.
- 2) Please calculate the average price per charged hourly rate for the chosen category within each field of activity. Prices should be stated exclusive of VAT and be calculated quarterly. Should you not be active in some particular branch, please mark with an "X" in the category field in question.
