Turnover changes & NA

Turnover changes STS, SBS and NA SIC 52

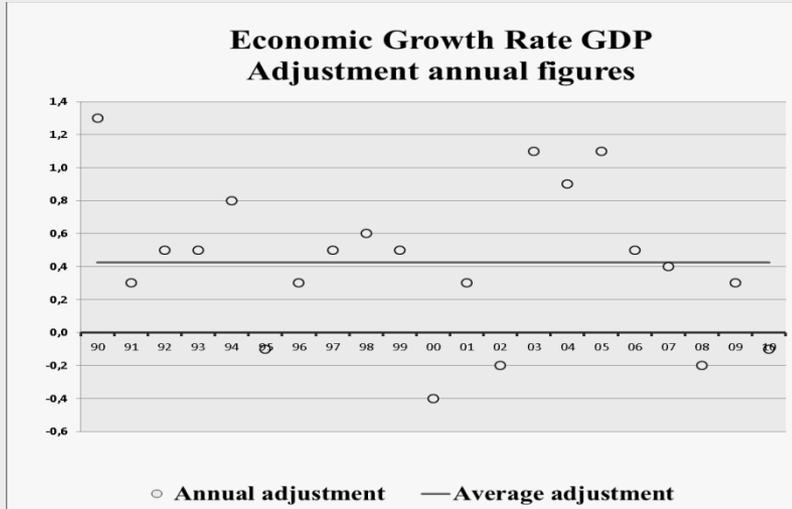

Period	STS Quarter	SBS	National Accounts Quarterly
2010	5,6	4,9	5,6
2011	5,4	9,9	5,3
2012	2,4		2,3

Innovation - redesign

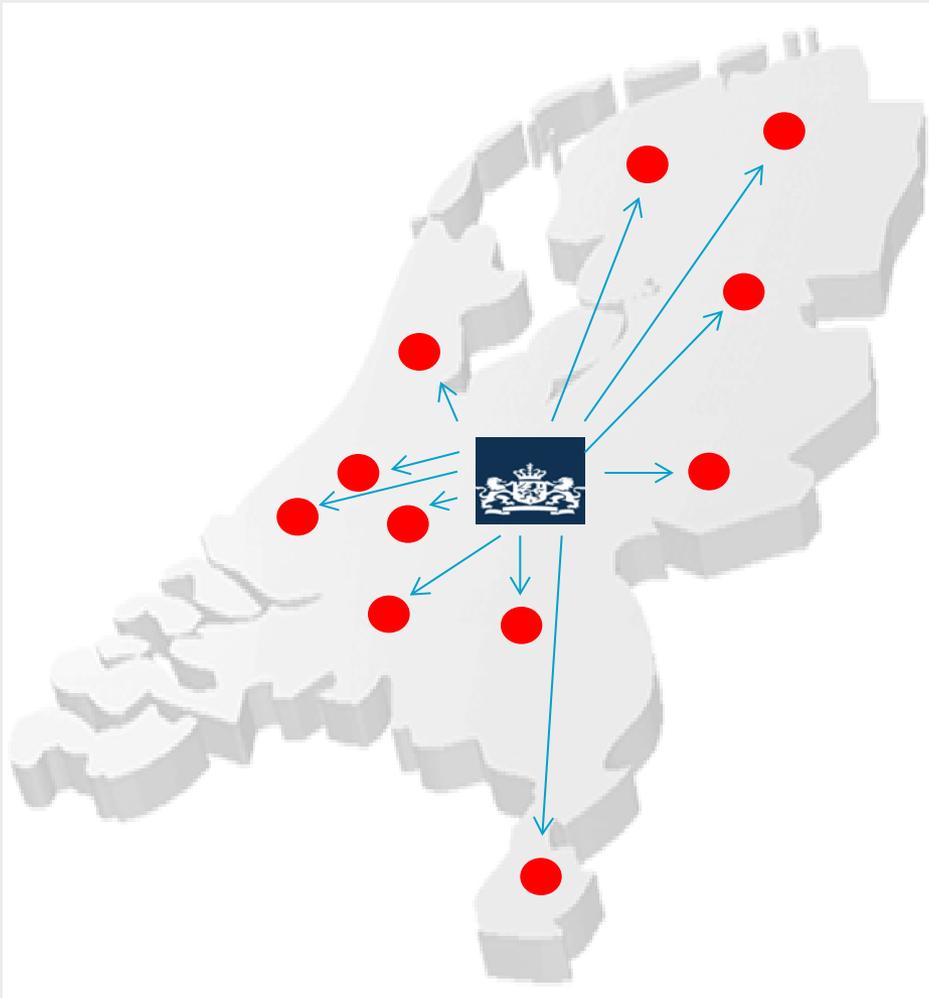

Why?

- 1.Reduce administrative burden
- 2.Quality improvement statistics
- 3.Efficiency gains in processes

Structural
underestimation of
quarterly GDP growth

Innovation - advantage of VAT data

VAT data provides turnover information that can be used for economic statistics, especially the turnover statistics

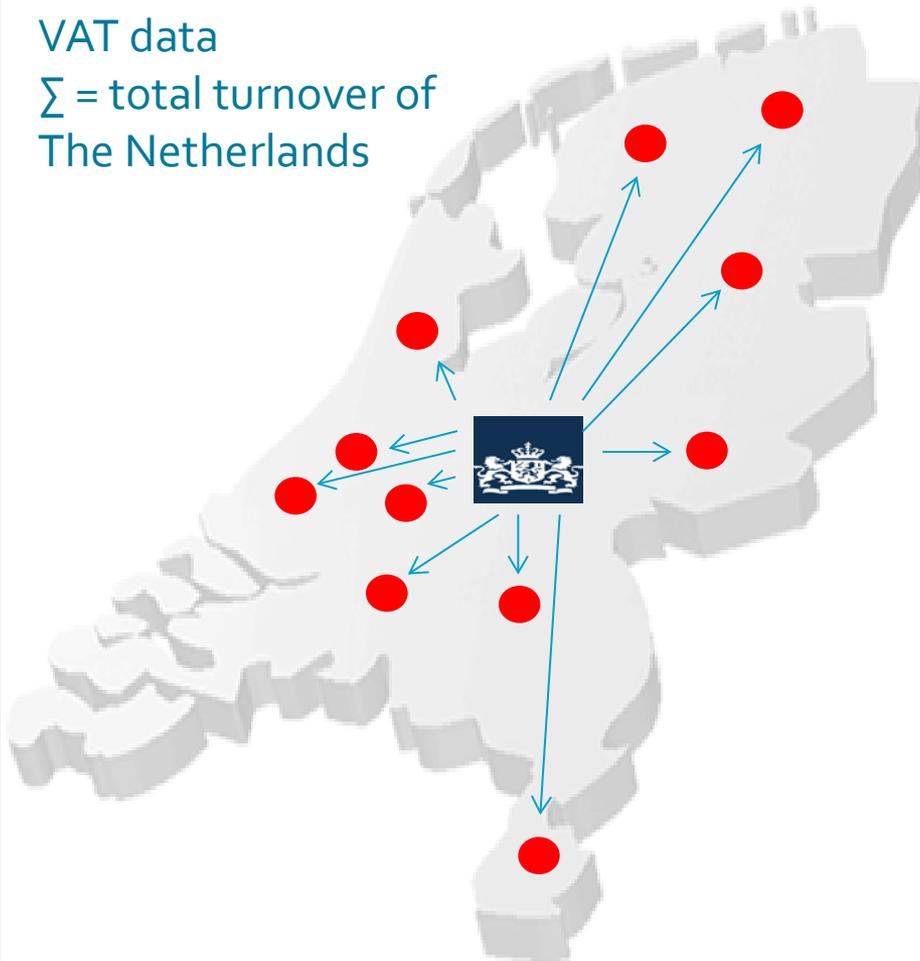

Benefit (I)

'Substantial reduction administrative burden'

Innovation - advantage of VAT data

VAT data

Σ = total turnover of
The Netherlands

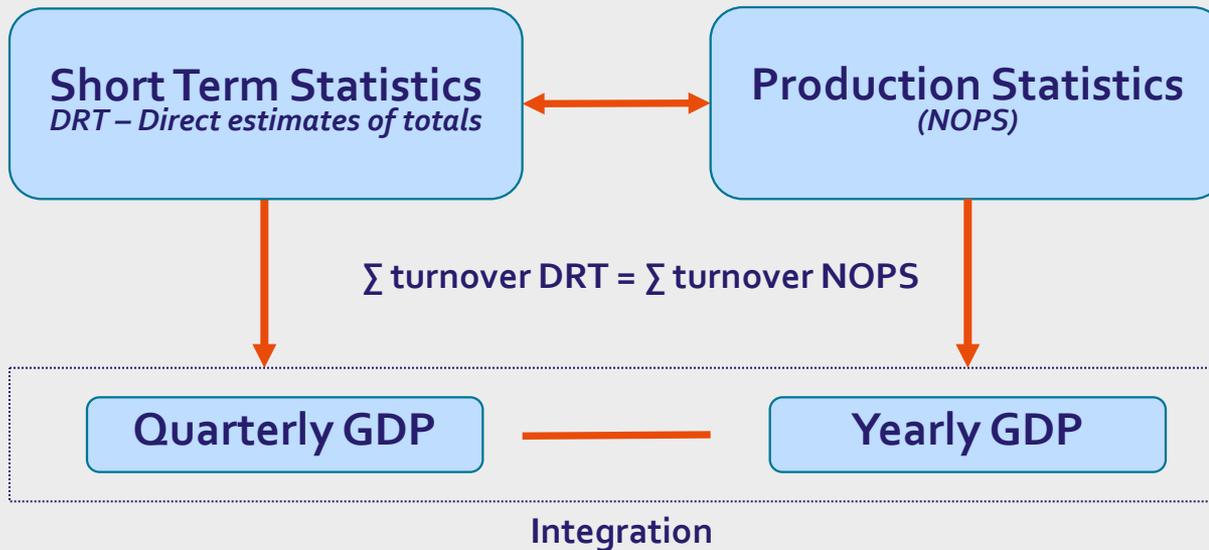

Benefit (II)

'Quality improvement'

Due to

- Mass: reduction of error margins
- Improved alignment between different statistics (STS and SBS)

Innovation - integrating VAT data

Improved alignment between DRT en NOPS leads to reduced underestimation of the GDP.
