Description of industry

- Classification NACE
- Correspondence table
- Market conditions

Classification: NACE

Section N – Administrative and Support Service Activities

N77 Rental and leasing activities:

77.1 Renting and leasing of motor vehicles

77.2 Renting and leasing of personal and household goods

77.3 Renting and leasing of other machinery, equipment and tangible goods

77.4 Leasing of intellectual property and similar products, except copyrighted works

Correspondence Table:

ISIC_4 - Target classification: NACE_REV2

ISIC Rev.4

77 - Rental and leasing activities

773 - Renting and leasing of other machinery, equipment and tangible goods

7730 - Renting and leasing of other machinery, equipment and tangible goods

NACE Rev.2

77 - Rental and leasing activities

77.3 - Rental and leasing of other machinery, equipment and tangible goods

77.31 - Rental and leasing of agricultural machinery and equipment

77.32 - Rental and leasing of construction and civil engineering machinery and equipment

77.33 - Rental and leasing of office machinery and equipment (including computers)

77.34 - Rental and leasing of water transport equipment

77.35 - Rental and leasing of air transport equipment

77.39 - Rental and leasing of other machinery, equipment and tangible goods n.e.c.

Industry description, 2019

| Activity | Number of enterprises | Average number of persons employed | Turnover M Euros |
|---|-----------------------|------------------------------------|------------------|
| Economic activities total | 95407 | 486373 | 72493 |
| N Administrative and support service activities | 5294 | 34256 | 2077 |
| N77 Rental and leasing activities | 1451 | 3571 | 698 |

Turnover of enterprises by Economic activity, MEuros

| NACE Rev.2 | 2015 | 2019 | Change, % |
|---|-------|-------|-----------|
| Economic activities total | 52967 | 72493 | 37 |
| N Administrative and support service activities | 1309 | 2077 | 59 |
| N77 Rental and leasing activities | 348 | 698 | 101 |

Industry description, 2019

Turnover of enterprises by Economic activity , %

Number of enterprises by size groups of employees, 2019

| | Total | 1 to 9 | 10 to 19 | 20 to 49 | 50 to 99 | 100 to 249 |
|---|-------|--------|----------|----------|----------|------------|
| N77 Rental and leasing activities | 1451 | 1400 | 30 | 16 | 2 | 3 |
| N77.1 Renting and leasing of motor vehicles | 567 | 560 | 5 | 2 | 0 | 0 |
| N77.2 Renting and leasing of personal and household goods | 90 | 82 | 1 | 5 | 1 | 1 |
| N77.3 Renting and leasing of other machinery, equipment and tangible goods | 748 | 714 | 22 | 9 | 1 | 2 |
| N77.4 Leasing of intellectual property and similar products, except copyrighted works | 46 | 44 | 2 | 0 | 0 | 0 |

Measurement of SPPI

- Scope of the survey
- Sample design
- Prices
- Index compilation

Scope of the survey

- 77.3 Renting and leasing of other machinery, equipment and tangible goods
 - 77.32 Renting and leasing of construction and civil engineering machinery and equipment
 - 77.39 Renting and leasing of other machinery, equipment and tangible goods n.e.c.

Sample design

- Statistical population – All enterprises whose main or secondary economic activity is rental services.
- Frame - List of economic units who are active in the field of rental services. The list is generated from the Business Register for Statistical Purposes.
- Data on turnover from business services are received from the Commercial Register.
- Sample size is 30 units.

Prices

Pricing method: list prices (monthly).

The prices are registered from internet. There is no response burden for enterprises.

For price registration:

- Specification of the service for N77.32:
 - type of machinery
 - renting terms
- Specification of the service for N77.39:
 - type of equipment
 - renting terms

Index compilation

- The weights system of the service producer price index of activities and base prices for calculation are updated every year. In the current year (t) the base prices for the calculation of the SPPI were the prices of the last year (t-1) December.
- The weights system corresponds to the turnover of enterprises in the year t-2.
- The base prices for the calculation of the service producer price index were the prices of the last year (t-1) December.
- The (chain) Laspeyres formula is used.

Challenges

- Some challenges about sampling. Enterprises main and secondary economic activity is sometimes not correct. Enterprises interpretation of the NACE codes is different from the official version. We explain the content of the NACE codes to enterprises and we also cooperate with the Business Register for Statistical Purposes.
- There are some challenges concerning the internet web-site prices. For example: web-sites with pricelists could be closed any time, available only for registered clients or enterprise does not have it at all. But pandemic situation influenced enterprises to have updated, open and active web-sites.
- All service activities do not have the breakdown of sales to B2B and B2C. If this breakdown is done, than is easy to use consumer price index to measure price changes for private consumers. In this case, it is only necessary to collect the prices of services provided to business customers.

Thank you!
